PLUG ORANGE

"Diversity is our Strength"

About Us:

Plug orange is providing the best solution to their customers. We have been working from couple of years to resolving the technical issue in market place. We come up with multiple services such as engineering solution & services, Telecommunication and IT services and much more extracting from real life in global market having with experienced developers.

We are also developing a market place project for your organization that will be having multiple services and substantial ideas for being beneficial to you and your consumers. Plug orange will provide you many services those are given below:

- Website Development Static
- Website Development Dynamic
- Mobile Application Development IOS
- Mobile Application Development Android
- ERP System
- Inventory System
- Management System
- Game Development
- Machine Learning
- Unity Game Development
- E-commerce
- Shopify
- PHP
- Asp.Net
- Woo-Commerce
- Point Of Sale
- Billing System
- Graphic Design And Much More.

Technology & Tools:

Plug orange always use offensive technology for their project and keep their self to be updated by new technologies. All projects are developed on very flexible and feasible platforms to transform new components easily and greatly your project also developed on it, some of them are given below:

- HTML
- CSS
- PHP
- REACT JS
- VISUAL STUDIO CODE
- BOOTSTRAP
- MS SQL SERVER

Management System:

We will develop the hybrid management system on new technology that would be compatible with desktop and any mobile screen. It will be fully moderate and highly responsive management system for dynamic usage, not only for some resources. It will be developed under the faith of experienced developers to come up with intellectual terms and condition.

The architecture of your management system

We will make two different Dashboards in the management system.

- Super Admin
- Admin
- Teacher

SUPER ADMIN:

Super Admin will have dashboard in which he can see all the schools.

- Sign in
- Add School
- Add paper and syllabus.
- Upload test papers

ADMIN:

For a successful execution of any software, it needs to have an easy to use and well- designed user interface. It should be designed in a way so that a person with least computer knowledge should also be able to access the system. The software must also be customizable as per school requirements.

Complete Secure Admin Panel only authorized person can access having password security

- Sign In
- Add teachers
- Teachers Details
- See paper and syllabus

TEACHERS:

Avoid keeping bundles of files as you can save all the data in a system. This method can help you to access the data immediately if required. You can do this with effective school management software.

Such software is capable enough to manage the registration and admission process of both old and new students smoothly. This software can remove the difficulties caused by human errors and treats the new and old students differently based on the information provided.

Homework:

With this module, daily classroom homework assignments become easily available to students 24 hours a day. It also contains the date when it was assigned and when it should be submitted. In addition to these, teachers can also modify homework assignments and projects as per the requirements

Plug ORange

- Sign in
- Separate Dashboard
- See all papers that upload by own
- Add papers and syllabus
- Upload test paper

Content:

Plug orange will also provide effective content for your website. The content will be covered by knowledgeable content writers of our team, which would be charming material and enhance the user attention by reading the premier content.

Theme:

Theme will be accomplished by expert and skillful team members so that website becomes attention gathered website that is very important to be stable and get place in market because there are many websites those have been developed but couldn't get the place in market because of not focusing on some important pillars. We will not let you to face these kinds of drawbacks.

Pictures:

The creative power of Photoshop will be used to create high quality pictures and it will be created by productive photo editor. It will bring your creative vision to your website. Our editor will create amazing images and graphics composites artwork with the world's most powerful images and design
